

# *Estate North Star*

## *The Cottage*

**The Cottage** - was my first house as a tenant. The current manager was less than managerial. When other tenants had problems with their units they asked for my assistance for a solution. So when The manager stated he was leaving the island, I aggressively stated that I will take the job even though it wasn't being offered to me. I told him I was already doing the job. He lived in the top house (best view) and when he left I moved up.
